## SAMPLE QUESTIONS: C\_TPLM10\_71

SAP Certified Application Associate - Life-Cycle Data Management in SAP PLM 7.0, EhP1

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

### Questions

1. Which objects can you synchronize using Guided Structure Synchronization (GSS) in the PLM Web UI?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Product structure to material BOM
b)	<input type="radio"/>	Document structure to document structure
c)	<input type="radio"/>	Material BOM to material BOM
d)	<input type="radio"/>	Material BOM to product structure
e)	<input type="radio"/>	Document structure to material BOM

2. Which objects can you change with a change number that has parameter effectivity?

Please choose the correct answer.

a)	<input type="radio"/>	BOMs, documents, materials
b)	<input type="radio"/>	BOMs, characteristics, materials
c)	<input type="radio"/>	BOMs, characteristics, documents
d)	<input type="radio"/>	BOMs, characteristics, reference operation sets

3. You released characteristics, assigned the characteristics to classes and classified objects in these classes.

What happens when you try to change the status of the characteristic?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	You receive an error message.
b)	<input type="radio"/>	This has no effect on the classes where the characteristic is assigned.
c)	<input type="radio"/>	You can no longer assign the characteristic to other classes.
d)	<input type="radio"/>	The characteristic is invisible when you classify an object.
e)	<input type="radio"/>	The characteristic is invisible in the transaction Find Objects in Classes.

4. You change the original files attached to a document info record.

Where can you specify the check-out path to be used by the system?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	In the status network
b)	<input type="radio"/>	In the profile
c)	<input type="radio"/>	In the document info record
d)	<input type="radio"/>	In the document type
e)	<input type="radio"/>	In the dialog box prompt

5. Low-level code is the lowest position that a material appears on any multi-level BOM.

For which organizational level is the low-level code calculated.

Please choose the correct answer.

a)	<input type="radio"/>	Valuation area
b)	<input type="radio"/>	Company code
c)	<input type="radio"/>	Plant
d)	<input type="radio"/>	Client

6. Which of the following do you use as influencing factors for customizing the material master?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Material type
b)	<input type="radio"/>	Industry sector
c)	<input type="radio"/>	Authorization group
d)	<input type="radio"/>	MRP profile
e)	<input type="radio"/>	Transaction code

7. Which type of object dependencies can you use in a product variant structure?

Please choose the correct answer.

a)	<input type="radio"/>	Selection conditions and procedures, but only local object dependencies
b)	<input type="radio"/>	All types of object dependencies, both local and global
c)	<input type="radio"/>	Only selection conditions, but local and global object dependencies
d)	<input type="radio"/>	Only selection conditions and only local object dependencies

8. Which types of object search are available in the PLM Web UI and not in the SAP GUI?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Search via Classification
b)	<input type="radio"/>	Match Code Search
c)	<input type="radio"/>	Object Independent Search
d)	<input type="radio"/>	Personal Object Worklist

9. What can you accomplish with the multilevel copy in the Engineering Workbench?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	You can control the copying of subordinate elements of the BOM and task list.
b)	<input type="radio"/>	You can simultaneously copy a material BOM and a task list in one step.
c)	<input type="radio"/>	You can copy a multilevel structure of the material BOM in

		one step.
d)	<input type="radio"/>	You can copy multiple task lists in one step.

10. Your customer requires that a value for characteristic A is mandatory only when characteristic B has a value assigned to it.

What type of object dependency must you use and where do you assign it?

Please choose the correct answer.

a)	<input type="radio"/>	A precondition assigned to characteristic B.
b)	<input type="radio"/>	A selection condition assigned to characteristic B.
c)	<input type="radio"/>	A selection condition assigned to characteristic A.
d)	<input type="radio"/>	A precondition assigned to characteristic A.

## Solutions

1 a) Correct	2 a) Incorrect	3 a) Incorrect	4 a) Incorrect	5 a) Incorrect
1 b) Incorrect	2 b) Incorrect	3 b) Correct	4 b) Correct	5 b) Incorrect
1 c) Correct	2 c) Incorrect	3 c) Correct	4 c) Correct	5 c) Incorrect
1 d) Incorrect	2 d) Correct	3 d) Incorrect	4 d) Incorrect	5 d) Correct
1 e) Incorrect		3 e) Incorrect	4 e) Correct	
6 a) Correct	7 a) Incorrect	8 a) Incorrect	9 a) Correct	10 a) Incorrect
6 b) Correct	7 b) Incorrect	8 b) Incorrect	9 b) Correct	10 b) Incorrect
6 c) Incorrect	7 c) Incorrect	8 c) Correct	9 c) Incorrect	10 c) Correct
6 d) Incorrect	7 d) Correct	8 d) Correct	9 d) Incorrect	10 d) Incorrect
6 e) Correct
